How to Figure the Quantity of Paint Needed for any House

For re-painting: Add the length of both sides and the width of front and ■ and multiply by the height to the eaves; divide this by 325 and you have the number of gallons of body color required for two coats.

For priming wood not previously painted, add 1/2 to the total quantity figured above. The paint used for priming should be white or a light tint thinned with oil and turpentine as directed on the label.

You will require ■ gallon of the trimming color for every five gallons of the body color. You will also need some Shellac No. 991 and brushes.

The New Quick-Drying Decorative Finish for Furniture, Toys, Woodwork and Floors

Color is the keynote of the modern home. Floors, furniture and woodwork all respond to the magic touch of Larkin Lacquer. It has hundreds of possibilities. The colors are glossy and permanent and can be blended for an infinite variety of tints.

Now you can do all the interior decorating you desire without the annoyance and delay you have been accustomed to associate with painting. You can paint the children's toys, bicycles and wagons in bright, attractive colors which withstand the hardest kind of wear. You can renew the youth of the family silver or change the color of the chandeliers. In fact there is no end to the wide variety of uses to which this wonderful product, Larkin Lacquer, can be put.

One quart covers about 100 square feet, two coats. Order with Lacquer a Brush No. 332 or No. 333 and some Lacquer Thinner No. 950.

Lacquer Thinner No. 950

For best results with Larkin Lacquer, it is always desirable to have on hand a can of Lacquer Thinner No. 950. This is the proper solvent for thinning lacquer which has thickened from standing in an open container, or to make it flow out easier on a large surface. It serves to clean the brush and clothes when the job has been completed. Avoid the use of turpentine, alcohol, gasoline or other thinners which are not suitable with Larkin Lacquer and which will lead to poor results.

Varnishes

Varnishes are transparent and cannot hide marks and defects in the surface. Therefore, if the surface is badly marred use Larkin Graining Materials before varnishing or cover the old surface with a suitable paint or enamel.

Before varnishing new, open-grained wood such as oak, ash and mahogany, fill the pores with paste filler. This is not necessary for close-grained woods such as maple, pine and birch.

One gallon of Larkin Varnish will cover approximately 300 square feet, two coats, when properly flowed on. Complete directions for use are printed on the label. Best results are obtained with Larkin Varnish Brushes.

Spar Varnish No. 610

Protects against water and weather

Sunshine, rain, snow, steam or acid fumes have no effect on this wonderful coating. For boats, porch ceilings, outside doors, bath-room woodwork, washing-machines, store fronts. Two quarts mixed with one gallon of Larkin House Paint make the ideal finish for canoes, etc.

A Larkin Club of Your Own Quickly Brings You Lovely Things

The popular way to get Larkin Premiums is through a Larkin Club. Thousands upon thousands of women know the profit and pleasure of Larkin Club membership whereby the housekeeping funds bring into the home wonderful things that beautify and add comfort to the home.

Many thousands, too, have recognized in the Larkin Club the opportunity not only to obtain Larkin Premiums more quickly but as well to be of genuine service to their own immediate circle. Thus they not only belong to a Larkin Club of which a friend or relative is the proud Secretary, but at the same time they are themselves Secretaries of their very own.

As a member of a friend's Club you may purchase \$1 or \$2 monthly in the way of useful Larkin Products—soaps, pure foods, toilet articles, etc. and when your turn comes for the Larkin Premium

in that Club you will have the joy of having something to show for your housekeeping expenditure—something to brighten home, like a pretty lamp, a chair, warm, woolly blankets, table linen or glassware.

Then, too, as a Larkin Secretary of your very own Club, you may yourself in turn earn worth-while Rewards for conducting a Larkin Club. Larkin Co pays Larkin Secretaries liberally in the form of Larkin Coupons or Larkin Premiums for gathering together a little circle of friends, assembling and forwarding their Club order each month to Larkin Co.

The Secretary of a Larkin Club receives in Larkin Coupons one-fourth of the money sent with the order (provided the order amounts to \$10 or more and is paid in full).

Relatives and Friends Will Gladly Join

Larkin customers and Club members realize just how worthwhile it is to belong to a Larkin Club. If you do not now belong to one, ask any Club member to show you the Premium offered with a \$10 purchase, which she obtained just by ten little monthly \$1 purchases of Larkin Products in her Club. If you already know this by experience you can easily convince friends of the benefits of Larkin Club membership. Seeing is believing and you have ample proof of just how worthwhile it is to belong to a Club.

Jot down the names of some of the relatives or friends whom you would be glad to see enjoy the benefits of Larkin dealing. Then send for the interesting book pictured on the facing page. All you need to do is to cut out the postcard, sign your name on the reverse side and post it to us. So interested are we in telling you how worthwhile are the Rewards of the Larkin Secretary that we will gladly pay the postage on the card ourselves. You owe it to yourself to have your very own copy of this book that opens such a door to opportunity.

on Better Homes Easy-Payment Plan

Making Out the Order

All Larkin Premiums ■ pages 79 to 218 are sold on easy payments. Simply pick out the things you want from the host of offers.

In the catalog description of the article, the price printed is the Larkin Coupon price. Having found coupon price necessary to get the article, refer to the table below and you will find in the column opposite the coupon price, the easy-payment price.

For example, let us suppose that you have selected Coxwell Chair No. 1276M1 on page 150. On that page you will note that the price is \$50 in Larkin Coupons. By referring to the table on this page you will note that the easy-payment price for any article offered with \$50 in Larkin Coupons is \$28.75. Similarly, you will price whatever articles you selected for your Better Homes orders.

List your selections ■ the order blank, on page 77, together with the easy-payment price of each. Total the amount, then refer to the table headed "Terms of

Payment" which you will find ■ page 75, for the amount of your down payment and monthly payments.

If the article has ■ price of more than \$150 in Larkin Coupons, for example, \$225 in Larkin Coupons, split it into two amounts, such as \$100 and \$125, which total \$225 in Larkin Coupons. The price you would pay in such an instance would be the total Better Homes price of the two amounts. In this ■ the price is the sum of \$57.50 and \$71.90, or \$129.40.

In the terms of payment table on the preceding page you will note that the smallest Better Homes order which we accept is \$25. These terms of payment cover any purchase ■ our easy-payment plan except the Larcophonic Radio. Terms of payment for the Radio are given in the offer.

Stunning! Graceful! Youthful! The kind of dress in which you "feel good"!

Have you noticed how soft and pretty the tiers across the front of skirt fall? By the way, tiers are more fashionable than ever and these, contrary to the majority, do not lessen one's height—the graceful side-jabot offsets that effect. So, too, does the surplus closing.

Fagoting and fancy stitchery in same contrasting tone as the detachable vestee, waistline trim and lining of bow, is a trim that never goes out of style and offers no cleaning worries. Plain, belted back.

Shades are so inexpensive that there is little excuse to have cracked or torn shades that detract so from the general appearance of the house inside and out.

When windows are small or of odd shape it is often an advantage to make the curtains. Rayon Marquisette is ideal for such needs and is offered in four of the most desirable shades. For glass curtains this sheer, silky material is delightful; for light-weight hangings it presents a most delicate, pleasing appearance.

These tapestry portieres are offered in two color combinations and in two widths. They are firmly woven in Jacquard design, in colors that harmonize with decorative schemes of similar shades. Fringed bottom and heavy tasseled top. 96 in. long exclusive of fringe. Reversible.

FELT-BASE Rugs

Colorful
Durable
Easy to Clean

Big Value

Colorful! Delightfully so. Crisp, cool green, clean-looking ivory, serviceable tan, a bit of brilliant orange, a touch of dull red—all blended into harmonious design. Or, should you have an abundance of color in the room where you require the rug, then the quieter tones of the gray with touches of blue and rose, will be an admirable choice.

Durable! Upon the foundation depends the length of durability. Layers of felt form the base upon which the pattern is printed, and felt is tough, yet with a certain resiliency that will withstand long wear. The pattern, as with all hard-surfaced floor-coverings, will last indefinitely if varnished or waxed.

Easy to Clean! It measures up to the demands of the American housewife of to-day—that practicability shall not be sacrificed for beauty.

Big Value! You need only to look at the terms in the table at right to be convinced that this is indeed a Big Value.

At the bottom of page 108 a small corner of 022 is shown in color.

Living-room or kitchen, dining-room or bedroom, sun-room or sewing-room—this type of floor covering is appropriate and effective. And more and more the hard-surfaced rugs are being used throughout the entire house.

CARPETS that impart a restful atmosphere to the room, that are rich in beauty, plain in color, thick and soft to walk on, that may be had in any size desired—such are Claridge Carpets. You've seen them in the best hotels and the lobbies of exclusive clubs. Always there is the same feeling of luxurious, spacious, comfortable surroundings, and you have thought such carpets must be a fabulous price. Considering the wear to which such carpets are subjected and the length of time they last, the cost is low. We are offering for the first time such carpets—the Claridge!

Soft in tone and soft in fact these carpets, unbroken by any design, provide a neutral background for furniture. They permit the use of bright color in wall-paper and hangings and enable you to completely change your color scheme when redecorating which is often prevented with figured carpet. And, whatever the room, we will make a carpet for you to your order. Or, you may want to entirely cover the floor—many decorators are doing so, especially if the room is small—it has a tendency to make the room appear larger.

Claridge Seamless Carpets are made of the finest wool, dyed under the most careful supervision and woven in plain colors only. They are dignified and refined and compare with the finest productions of foreign looms. Their strength is due to the sturdy Scotch Highland wool; the soft brilliancy, to the silky Persian fleece and the resiliency, to the long-fibered Australian wool; a combination of wools that produce an excellent fabric. The edges are finished with a strong serging and overlocking. Shipped from Newark, N. J. and Chicago, Ill.

Whether you order the splendid rug or floor-covering by the yard in two- or three-yard width, you will be well pleased with this felt base. A good yet economical hard-surfaced material. It resembles printed linoleum and cleans as easily. It has a felt base, tough and durable. Floor-coverings of all kinds last longer and clean more easily if a protective coat of varnish is applied. If you will give the room-dimensions we will cut ~~it~~ that pattern will match.

Larkin Pale Linoleum Varnish, applied when Congoleum or similar floor covering is first laid, will preserve the original pattern and make it wear much longer. The varnish is easily applied, dries quickly and the task of keeping the floors clean is greatly lessened by its use. *Revarnishing about once in six months* will preserve the surface indefinitely. See page 70 for this wear-resisting varnish.

Unfinished Furniture Well Made in Popular Styles

All the offers in this group are substantially made of hardwood, smoothly sanded and ready to finish. Larkin Paints enable you to complete them to harmonize with any color scheme. A touch of gay contrasting color gives the final decorative touch. Send for free paint color card (coupon on page 68).

For a quick-drying, glossy and highly durable finish, use Larkin Lacquer, applying at least two or preferably three coats.

How to Finish This Furniture

Another method of finishing is to use a coat of Gloss Interior Enamel over a foundation of one or two coats of Larkin Flat Paint.

A transparent finish to bring out the grain of the wood may be secured by applying a coat of penetrating stain followed by a coat of white shellac. Finish with polishing wax if a semi-gloss finish is desired, or with furniture varnish for a glossy finish. For large pieces use Brush No. 341. For smaller pieces, Brush No. 332.

The excellent workmanship in "Ice King" Refrigerators, inside and out, is apparent at a glance. They are neat, good-looking, and, above all, supremely sanitary. The whole interior is practically one glistening, smooth white surface, with no cracks or crevices, no inaccessible corners, no sharp projections and exceedingly easy to keep clean and sweet.

The hardware is trim and durable. Door catches and hinges for enamel-lined refrigerators are of substantial weight and of plain, neat design, heavily nickel-plated; lever type with spring. Door catches and hinges for porcelain-lined refrigerators are of solid brass, heavily nickel-plated. Catches act automatically.

Outside bases are made of selected hardwood, sanded smooth, and all except No. 1516, finished in a rich tone of Golden Oak, protected by high-grade varnish. No. 1516 is white enameled exterior.

Traps made of aluminum. Drain pipes, white enameled. Both quickly and easily removable for cleaning. Ice chambers and racks are of rust-resisting, extra heavy Keystone Copper Steel, reinforced and electrically welded. Shelves made of heavily tinned one inch wire mesh. All equipped with easy running casters.

Insulation

■ **Corkboard.** This is the best form of insulation and is used in the finest refrigerators. It consists of high quality corkboard, 1 in. thick, secured firmly to the back of the entire lining with Hydrolene waterproof cement, making a perfect seal between the lining and the corkboard.

■ **Dead Air.** An effective means of insulation is produced by thoroughly and completely sealed dead air spaces in all walls (top, bottom, rear, sides and doors.)

■ **Cork.** A very satisfactory insulation is formed by granulated cork put in under pressure and sealed tight between the inner walls and the outer case on all surfaces (top, bottom, rear, sides and doors.)

Nos. 1806, 1840 and 1739 are suitable for electric refrigeration units.

PACK
CANNING

COOK and CAN with Live Steam

Easier with a CONSERVO COOKER-CANNER

SAVE
WORK
FOOD
TIME
MONEY

There is a danger of food burning, scorching or boiling away when you use the "Conservo". Carrots, onions, meats, potatoes, oatmeal, custards and other foods are thoroughly cooked without watching or stirring. No sticky, greasy pots and pans to do you extra work. Remember, too, it is all done on only one burner—and with very little heat, too; just enough to keep boiler steaming. Flavors cannot intermingle. Food absolutely cannot become overdone.

The copper bottom of "Conservo" is a water tank and the steam from the boiling water thoroughly cooks by live steam food placed on shelves above. This method of steam cooking is recognized as being the most successful. It doesn't cook away the flavor and vital food elements. It leaves in the natural mineral salts and other health-giving qualities of food. Yet it is practically the simplest way to cook.

Think how easy it is! Especially for a big family or guests. Suppose you want to cook a complete meal—a dinner consisting of meat, vegetables and a custard dessert. Proceed as you would in any other mode of cooking—give the meat the longest time, then put in the potatoes and other vegetables, then the custard. It will all be ready at one time—ready when you are. No last minute hustle-bustle. No confusion and rushing about. Average kitchen utensils fit "Conservo". Two big cooker pans furnished with each.

"Cold Pack" canning is easy with the "Conservo". Fourteen big quart jars (Mason, Ball or others) can be put up easily and over one burner! Or you may can seven quart jars on the upper shelf while dinner is cooking in lower shelf, saving work and fuel. No lifting of jar laden trays. Less spillage and breakage. Experts in government extension and Home Demonstration work approve the "Cold Pack" method and the "Conservo" for canning by this method. Many practical tested ideas and recipes on home canning of meats, vegetables, fruits, soups, etc. in valuable 112 page cook book with each Conservo.

Made of heavy tin with seamless copper tank-bottom holding five quarts of water. Has four removable, tinned wire shelves and two tin pans. The doors, hung on non-rusting brass hinges, fit into seamless door-frames, allowing no odors or flavor to escape. Fitted with self-regulating pressure valve. A whistle blows when water is needed. Measures 21 1/2 in. high by 11 1/2 in. square. Mfg. wt. 22 lbs.

Dangler-Lorain Gas Range

This attractive, modern range is equipped with the famous Lorain Red Wheel oven heat regulator—the original device for the automatic control of gas range oven heat. One easy turn of this wheel gives you a choice of any measured and controlled oven heat for any kind of oven cooking or baking. In this magic oven you can roast meats and bake the most delicious desserts without ever a failure; fruits and vegetables perfectly; or cook whole meals at any time while you're miles away.

Some of the distinguishing features of the Lorain Control are: simplicity in design; ease of operation—wheel never binds; sensitive, steady—maintains the oven temperature constant, permitting extreme fluctuations; dependable—does not have to be watched to see if it is functioning properly; properly located on range—never placed where wheel becomes hot from heat developed by cooking-top burners; repairs are never necessary; functions with equal efficiency when either manufactured or natural gas is being burned, fluctuations in gas pressure affecting in no way the operation of the device.

The range has beautiful gray and white porcelain enamel finish. As easy to clean as a platter and rust

will not destroy. Inside of oven and broiler full porcelain enamel, finished in blue. Oven and broiler doors recessed so that they fit flush in front; door hinges are concealed and doors stay closed with spring catches. Equipped with automatic "Firefly" lighter which lights any or all top burners at the touch of a button. One giant and 3 regular burners and simmer burner. Porcelain broiler pan and white porcelain dust pan under cooking top burners. Rust proof racks in oven. Equipped with service drawer under cooking top. Extreme dimensions: 30 in. wide, 24 in. deep, 47 in. high. Oven, 16 in. wide, 18 in. deep, 12 in. high. Cooking top, 19 in. deep, 23 in. wide including end shelf.

Packed with each Lorain-equipped gas range is a 165-page cook book that contains tested time and temperature recipes to start you on the road to cookery-success. From these recipes you will find it easy to develop accurate measurements of time and temperature for your favorite recipes, and from then on, with the aid of the Red Wheel you will be able to achieve perfect results with anything you cook in the oven every time. "Boss" Electric Washer

More machines of the agitator type are sold today than all other metal-tub types combined. It embodies similar principles to the other shown—types that have been in use, giving satisfactory results for many years. The interior of the tub contains the sturdy, smooth agitator, which rapidly and quietly churns, throwing the water violently against the clothes. No rubbing, no soaking and no tangling of the clothes in the tub.

The copper tub, nickel-lined, is 22 in. in diameter and 14½ in. deep. A tub full of clothes be thoroughly washed in less than 10 minutes. Six-sheet capacity.

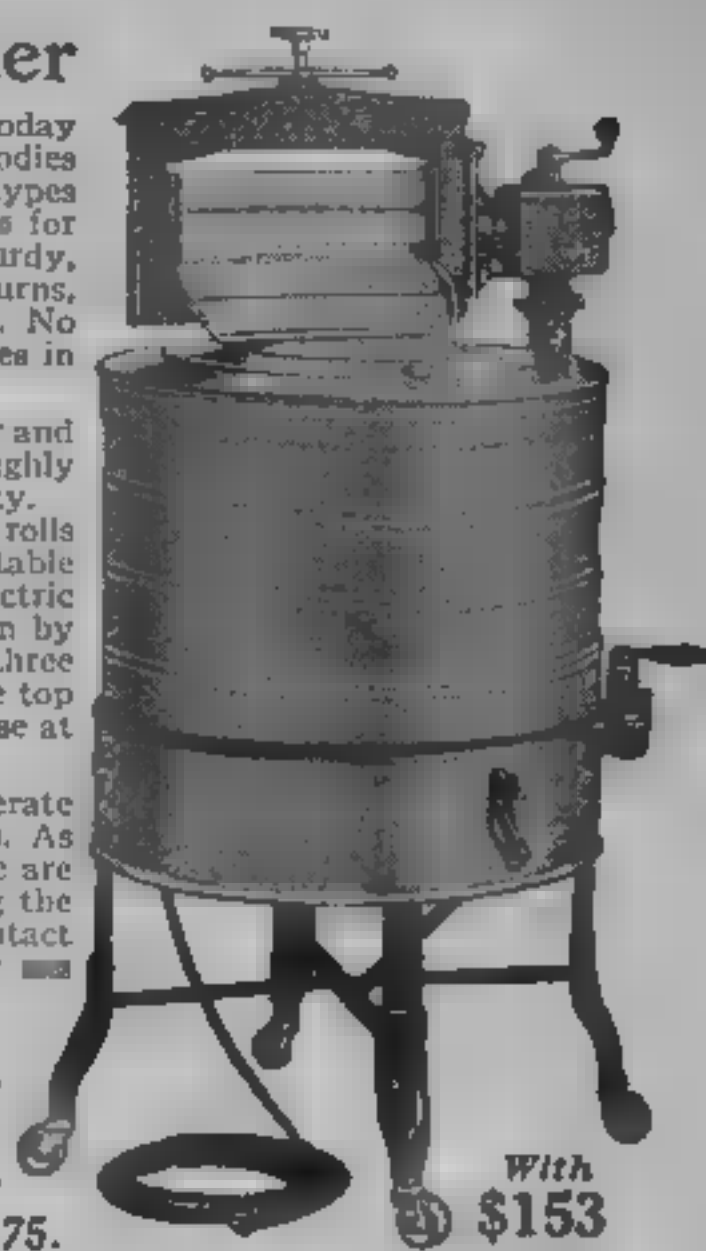

All-metal, reversible wringer with 12 in. rubber rolls and quick, safety releasing device. Wringer adjustable in five positions. Large, ½ H. P. General Electric Motor. Push button switch. The agitator is driven by mechanism that is most simple, containing only three moving parts. It is made that the clothes at the top of the water be washed just as thoroughly as those at the bottom of the tub.

Self-lubricating bearings with gears that operate smoothly and quietly. Large, easy-rolling casters. As shown in the illustration, all parts of this machine are enclosed, thereby eliminating all danger of soiling the clothes and harm to the operator by coming in contact with the mechanism. Orders Shipped Within 24 Hours

Your goods are on the way to you within 24 hours after your order is received, except in very unusual cases. Send your orders to Larkin Co with every confidence of quick, accurate shipment. At Buffalo and our branches in Peoria and Philadelphia hundreds of people are trained and ready to serve you—intent on getting your order to you as quickly, efficiently and conveniently as possible. Satisfaction with our service is a part of the Larkin guarantee!

Prompt Delivery By Parcel Post

Parcel Post is a quick, convenient, economical method, bringing goods directly to your door.

The mailing weight is given for each mailable item in this catalog. You can, if you wish, determine what it will cost to send your order by parcel post by reference to the accompanying table of parcel post rates, after learning in which zone you live.

Parcel Post Rates			
Zone	Limit of Zone from Shipping Point	For First Pound	Each Pound After First
1 & 2	150 miles	7c	1c
3	300 "	8c	2c
4	600 "	8c	4c
5	1000 "	9c	6c
6	1400 "	10c	8c
7	1800 "	12c	10c
8	Over 1800 "	13c	12c

If you prefer, we will send your order parcel post, postage collect. You then pay the postage on delivery and send us only the cost of the goods. Thus you avert necessity of computing the amount of postage to remit.

If the words, "Shipping Weight" appear at the end of the description, the article cannot be mailed and must be shipped by freight or express.

Leave the Method of Shipment to Us

Our Traffic Department often can save you money, if you leave the method of shipment to us. When we cannot ship to advantage by Parcel Post, we ship by Freight or Express, whichever is cheaper and better.

We will, however, ship in the way you request, although that way may be more expensive, if you explain your preference. For example you might write on your order "Ship by Express for March 12 wedding."

Customers Pay Transportation Charges

Freight and delivery, Parcel Post, or Express charges should be paid by Club members and customers. To cover this expense, many Club Secretaries charge 5 cents to 10 cents on each dollar's worth of goods ordered, depending upon the average transportation charge to their homes, collecting this from Club members and customers with the money for goods ordered.

In Premium clubs, the member who gets the Premium usually pays freight and delivery charges for the entire order. Thus, all take turns bearing this expense. Or this cost may be divided equally among the members each time.

Of course, the consumer *always* pays the cost of transportation of whatever she buys at stores, too. Retail merchants frequently have to include several charges for freight and handling in their selling prices, but you pay only one on goods from the Larkin Factories.

Former Offers

Most articles offered in the previous Catalog and omitted from this, can still be furnished.

It pays to save your Larkin Catalogs for future reference.

What "Shipped K. D." Means

This term, used in some offers of furniture, means "knocked down" or taken apart, so that smaller, compact crates may be used for packing. This reduces our packing costs, making our prices to you lower. Furniture so packed takes lower freight rates, too,

reducing the freight charges you pay.

All our K. D. furniture is easily set up in a few moments as only the chief parts are unassembled. But a few minutes are required to assemble the parts according to simple instructions furnished.

Safe Delivery Guaranteed

We guarantee safe delivery of all we ship. We refund promptly any Freight or Express overcharges. Whenever you think you have been overcharged for Freight or Express, send us the receipted bill.

Products and Premiums are usually shipped together. When, to save you cost, a Premium is shipped direct from the manufacturer, the catalog tells the shipping point.

If any goods are damaged or lost, report to us at once. Also notify your Freight or Express Agent immediately.

All goods are rigidly inspected and leave our factories in good condition. Always examine goods sent by Freight or Express at station before removing. If anything is damaged or missing, have agent write it on the Freight or Express bill. Send endorsed bill to us and we will adjust the matter immediately. If damage or loss is not discovered until goods are at your home

notify your Freight or Express Agent within 24 hours. **We consider no transaction closed until our customer is completely satisfied.**

Our Next Catalog

A copy of our new Catalog, which will be ready about August 15, 1929, will be mailed promptly to all Club Secretaries. We will gladly send it on request to any one.

LARKIN CLUB-MEMBERS ENROLLMENT

When we receive this enrollment-list, filled out with the names and addresses of your Club members, your name will be placed on our records as a Club Secretary entitled to Rewards and our monthly magazine, "The Larkin Idea." If you form a Club-of-Ten, an enrollment-list should be sent us every ten orders; that is, with the first order, the eleventh order, the twenty-first order, and so on. If a Club-of-Five, an enrollment-list should be sent us every five orders; with the first order, the sixth order, the eleventh order, and so on.

Sometimes, instead of taking cash, some Larkin Premium has been very appropriate as a contribution.

How to Get the Larger Premiums

The more valuable Premiums — those given with a larger purchase of Products than \$10 — may be obtained as follows:

If the Premium you want costs more Coupons than you have on hand or are due you, you may secure this Premium by paying one-half the Coupon shortage in cash, that is, \$1 cash for each \$2 in Coupons lacking.

For example, suppose you want the 29-piece set of Oneida Community Silverware on page 132, a Premium "with \$20 Purchase or Coupons." You have due you, let us say, the Premium or Coupons on a \$10 purchase. The remaining \$10 purchase or Coupons may be settled by paying \$5 in cash.

The cash price of Products or Premiums purchased alone is one-half the price printed in the catalog.

LARKIN COUPONS

If you do not wish to select a Premium at once we send you instead Larkin Coupons which may be exchanged for Premiums at any time.

Larkin Coupons are more valuable than any other Premium Coupons. Do not confuse them with others, hundreds of which are usually needed to get worth-while merchandise. We give the world's greatest Premium-value. This is proof!

Larkin Coupons are issued in amounts of 5c, \$2, \$5 and \$10. Keep your Larkin Coupons as you would money. Duplicate Coupons cannot be issued. Coupons may not be used in settlement of Credit Orders.

You can obtain any Premium by saving the required amount of Coupons shown in each offer. Larkin Coupons may also be exchanged for Products at "with Premium" prices.
